NFC blocking sleeve for programmable tokens (large cards)

Part no: NFC-Sleeve-Large · T2-30

Description

NFC blocking sleeves lined with a metallic material that will block the NFC signal. Dimensions suitable for standard credit card size tokens / 86 × 54 mm

Token2 is the only vendor that has a replacement battery for its programmable tokens. Although the risk of replay attack is low, it is always good practice to physically isolate your programmable tokens by keeping them inside the NFC blocking sleeves.
