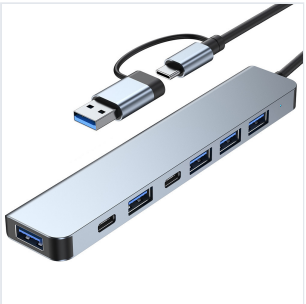
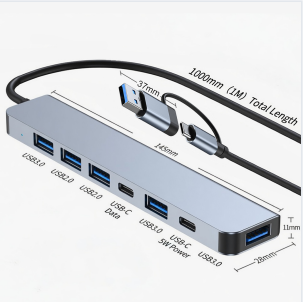
USB Hub & Extender — 7 Ports, 1 m, Dual-Head

Part no: USBHub71 · T2-119





Description

The Token2 USB Hub/Extender expands a single USB-C or USB-A port on your laptop into seven ports, while doubling as a 1-metre extension cable. Unlike typical multiport hubs that sit on a short stub directly next to the laptop, the 1 m cable lets you place the hub behind your monitor, through a desk grommet, or wherever it's most convenient.

The hub provides three USB-A 3.0 ports, two USB-A 2.0 ports, one USB-C data port, and one USB-C 5W power port. The dual-head input connector (USB-A + USB-C) makes it compatible with both modern and older laptops without needing a separate adapter.

Specifications

Type	USB hub with 1 m extension cable
Number of ports	7
Main connection	USB-C and USB-A (dual-head)

USB-A ports	USB-A 3.0 (3×), USB-A 2.0 (2×)
USB-C ports	USB-C data (1×), USB-C 5W power (1×)
Cable length	1000 mm (1 m, total length)
Input connector length	37 mm
Hub body length	145 mm
Hub body width	28 mm
Hub body height	11 mm
Colour	Grey
Operating system compatibility	Android, iOS, Linux, macOS, Windows
Tested with Token2 products	Token2 USB FIDO security keys, Token2 Molto2 device, Token2 Readers

The Token2 USB Hub/Extender is a 7-in-1 USB hub on a 1-metre cable, working as both a hub and an extension. Its dual-head input (USB-C + USB-A) plugs into either modern or older laptops, and it provides three USB-A 3.0 ports, two USB-A 2.0 ports, one USB-C data port, and one USB-C 5W power port. The hub body measures 145 × 28 × 11 mm, comes in grey, and works with Android, iOS, Linux, macOS, and Windows. Tested in-house with Token2 USB FIDO security keys, the Molto2 device, and Token2 Readers.
